

BSI and Bay Area Builders Exchange Network and Learn Construction Safety Series

About the event

In partnership with the Bay Area Builders Exchange, BSI EHS Services and Solutions (BSI) is conducting the Construction Safety Series for Bay Area contractors. The series will consist of breakfast seminars presenting BSI subject matter experts who will address environmental, health and safety issues that are specific to the construction industry.

Seminars are free, but space is limited, so sign up early!

About BSI EHS Services and Solutions

Our construction safety consultants help clients develop a construction safety culture that improves safety performance, increases knowledge of safe practices, reduces risk to workers in all phases of the construction project, and protects the project's bottom line. With over 25 years of proven construction safety leadership, we provide construction safety management, operational construction safety consulting, training services, and on-site support to construction projects of all sizes.

About Bay Area Builders Exchange

The Builders Exchange is a not for profit member association serving the construction industry since 1932. With locations in San Leandro and Concord, the Bay Area Builders Exchange supports Bay Area to identify new bid opportunities and serve as a construction industry information resource.
