The Disadvantaged Business Enterprise (DBE) certification is designed to help small minority and women-owned businesses have a competitive advantage when bidding for government contracts.

Join us for this free intensive workshop to learn:
- How to become a certified DBE firm
- How to complete the application
- What documents are needed
- Common mistakes with the process
- Advantages of the DBE certification
- How the certification can be used as a resource when doing business with the State of California

The afternoon session is designed for those who have a DBE packet ready for review or who have individual questions. Meet with one of our DBE Specialists for one-on-one feedback, document review and the potential to leave with a packet ready to notarize and submit. Remember...bring your printed DBE application/documents for review by one of our Specialists!

Those who are in the exploratory phase of the DBE certification are also welcome to attend.

**This workshop is a project of the Caltrans DBE/SS Northern Region Program.**
