Train the Trainer MEWP Aerial Platforms

Limited seating available

3055 Alvarado St, San Leandro, CA 94577

Training Date

January 30th, 2024 - 8am to 4pm

Need to Train your crew on a last-minute basis? Are you up to date on current OSHA requirements for scissors and Boom Lifts?

Attend this certification training, your team will gain valuable insights into MEWP safety protocols and best practices. The program is designed to empower trainers with the necessary knowledge and skills to effectively train others, contributing to a safer work environment Tailored to YOUR workplace.

Course Overview

1. An overview of the Cal-OSHA recording requirements and surviving an OSHA audit of your training program.
2. New requirements for Operator Training and Inspections on the equipment utilized by your employees.
3. New training materials in electronic format with printable certificates, quizzes, and performance evaluations.
4. Fall protection requirements per Cal-OSHA
5. Avoiding the “Low Hanging Fruit” category on construction sites.

Training materials will be customized during class for your specific company needs.

Attendees must have experience as an MEWP operator, have basic knowledge of Microsoft Office products (Word, PowerPoint, etc.), and should bring a laptop to class if available.
